Bologna, 15 May 2024

The Board of Directors of UnipolSai Assicurazioni S.p.A. (“**UnipolSai**” or the “**Company**”) authorised the issuance by the Company of a Euro-denominated, fixed rate subordinated Tier 2 instrument, to be issued in dematerialised form and to be held through Euronext Securities (formerly Monte Titoli), for a maximum nominal amount of up to Euro 750 million (the “**Issuance**” and the “**Tier 2**”). The Tier 2 will be distributed exclusively among domestic and international qualified investors (with the exception of US investors) and is expected to be listed on the professional segment of the Luxembourg Stock Exchange’s regulated market.

The managing body of the Company has also mandated the Chief Executive Officer to implement the transaction in one tranche, subject to appropriate market conditions, to set out its final terms and conditions, including its principal amount, issue date, issue price and final fixed rate coupon on best market conditions, reserving the right to postpone the Issuance and the subscription of the Tier 2 considering the existing economic environment, so as not to prejudice the outcome of the transaction.

BNP Paribas, Goldman Sachs International, IMI Intesa Sanpaolo, J.P. Morgan SE and Mediobanca – Banca di Credito Finanziario S.p.A. will act as joint lead managers on the Issuance.

For the purpose of efficient management of its liabilities and subject to the successful outcome of the Issuance, UnipolSai’s Board of Directors resolved to allow the Company to exercise, in accordance with the authorisation received by IVASS, the early redemption option on the subordinated perpetual instrument “*Euro 750,000,000 Fixed/Floating Undated Subordinated Notes*” (XS1078235733) on its first applicable call date falling on 18 June 2024 and, if more appropriate, on any subsequent dates on which the early redemption option may be exercised pursuant to the relevant documentation. The transaction will contribute to limit the financial leverage of the Company.

UnipolSai will meet with potential institutional investors today to present the transaction to the market.
